Designed for health. Built for life.

Control patient queues with retractable barriers

With an increase in foot traffic at medical centres due to COVID-19, a great way to organise and control waiting lines are through the use of retractable queue barriers.

The belts can clip on to each other creating a designated line or queue for public to use.

We can provide them in 3 metres or 4 metres in a range of colour options.

QUICK DELIVERY ALL AROUND AUSTRALIA*

*Delivery will be subject to availability.
